WAC Lights XFINITY LIVE!

This month features Philadelphia-based XFINITY LIVE!, a 5,000-patron capacity, 80,000-square-foot sports dining and entertainment center. The facility is used for concerts and other public events, located in the heart of the Wells Fargo Center it is also home to the Philadelphia Phillies, Flyers, Eagles, 76ers and Wings . WAC luminaires are installed throughout the Philly Marketplace, Spectrum Grill, Broad Street Bullies Pub, PBR Bar and Grill, Victory Beer Hall and NBC Sports Arena.

Over 1200 feet of InvisiLED® tape was installed under counters and bar tops, as well as within cabinets and coves throughout the center.

Bill Barnes, Project Manager for The Cordish Company, stated "WAC Lighting provided a variety of versatile quality luminaires. Highly functional and well designed, the lighting fixtures perform well in a broad range of spaces throughout the center."

Over 300 track luminaires were installed throughout the facility, for general, accent and wall wash lighting. Track fixtures were added for optimal display lighting, for example, in the Mitchell & Ness retail store.

"WAC offers a high quality portfolio of lighting fixtures and we were very happy with the results," continued Mr. Barnes. "We plan to use them again in future projects."
